

Name _____

Vegetable Orders

Directions: Jane, Michael, Beverly and Joseph went to a restaurant. Each person had two vegetables as a part of the meal. Read the clues to match the person with his or her vegetable choices. *Each vegetable can be chosen by only one person!* If a choice can be removed by reading the clues, write NO in the space on the chart. Write YES in the correct place on the chart to identify the two vegetables chosen by each person.

	Green Beans \$.49	Cabbage \$.49	Potato \$.99	Broccoli \$.85	Greens \$.75	Carrots \$.59	Corn \$.75	Celery Sticks \$.30
Jane								
Beverly
