

Turning Back the Wheel of Time

The wheel was a huge invention for people. After the wheel was discovered, people were able to move things easier. Logistics means moving stuff. How did logistics help people after the wheel was discovered? How does logistics help people today?

Task: (pick one or more to complete)

1. **Write a paragraph** comparing and contrasting logistics from the past to the present.
2. **Draw a comic strip** comparing and contrasting logistics from the past to the present.
3. **Create a skit** comparing and contrasting logistics from the past to the present.
4. **Write and perform a rap** comparing and contrasting logistics from the past to the present.
5. **Write a poem** comparing and contrasting logistics from the past to the present.
6. **Think of another way** you can comparing and contrasting logistics from the past to the present and ask your teacher if you can do this task.

Extra Task:

Now that you have completed the past and present, think of how the **future** of logistics will be. Add this to your task.

☺ Remember to have fun and cooperate with your team! ☺
